Chandkheda, 382424, ahamadavad, india

I am a passionate person who wants to learn and develop engineering skills to make a positive impact. I aim to be the best contributor to my organization and help it grow. I am committed to continuous improvement, staying updated with the latest industry trends, and collaborating effectively with my team. My goal is to innovate and solve problems to drive success and create value.

EDUCATION

SECONDERY SCHOOL EXAMINATION (10th Grade).

Tapovan school, CBSE BORARD cleared with 99.92pr

2018 - 2019

RAJKOT

Higher Secondary Examination(12th Grade).

Tapovan school, CBSE BOARD, cleared with 98.79pr

2020 - 2021

RAJKOT

Bachelor of Engineering

Vishwakarma Government Engineering College (VGEC)

2021 - Present

AHAMADABAD

Courses

- Computer Engineering

WORK EXPERIENCE

Instructor

Invincible NGO,

Part of it team at invincible NGO.

Summer internship

IBM SkillBuild platform

I learned a lot about AI and how to create chatbots using Watsonx Assistant. It was a great experience.

Coordinator

VAA (VGEC Alumni Association)

Department representative at alumni association.

Freelancing Work

Data Handling

Provided solution regarding to data handling to Mecha civil designs, HK architects. i gave solutions for data handling at different places, making their work easier. These solutions streamlined their processes and improved efficiency. As a result, they could complete tasks faster and with fewer errors.

TPC, (Training & Placement Coordinator)

training & placement coordinator at central level at VGEC.

HACKATHONS

- HACK VGEC & HACKATHON AT NIRMA UNIVERCITY

I took part in hackathons with my team, where we worked on two projects: a hostel management system and a platform similar to Zomato. I learned a lot from these experiences.

SKILLS

Leadership

Problem Solving

Communication

Critical thinking

HTML, CSS, JavaScript

React

Java

C language

Python

DBMS

SQL

App Script

Object Oriented Programming

PERSONAL PROJECTS

Management software

- Software gives businesses the tools they need to manage daily tasks and work more efficiently. It helps organize their work, saves time, and reduces mistakes. By using this software, businesses can focus on what matters most and achieve better results. It's not fully complete yet, but I've created a prototype using App Script.

Dynamic Menu Card

- I have created a dynamic menu card to master React and API integration in projects. This will help me understand how APIs function and how React operates.

CERTIFICATES

IBM SkillBuild (06/2024 - 07/2024)

Complete internship of Artificial Intelligence in IBM SkillBuild platform, sponsored by CSRBOX.

Certificate from Computer department.

for giving talks in the orientation program.

Certificate from VAA.

Certificate from Training & Placement cell.
